

iWork Workshop

Overview:

This workshop is designed to guide teachers on effectively combining both iWork and iLife application, to create one single engaging lesson delivery. This workshop will also showcase how teachers can publish their Keynote & Pages work into various creative channels, e.g. turning your Pages work into an iBook content via ePub publishing etc.

Suitable for:

- Existing iWork users.

Upon completion of this workshop, you'll learn:

- How to a wiki server via Mac and iPod,
- Interact with Trainer with iPod,
- How to publish an iMovie project on the wiki server,
- How to publish a Keynote project on the wiki server,
- How to publish a Pages project as iBook content via ePub publishing
